

THE 5-POINT QE CHECKLIST

FIVE QUESTIONS YOU CAN ASK TODAY TO FIND OUT WHETHER YOU'RE BUILDING RESILIENCE... OR JUST GETTING LUCKY.

- ☐ **Traceability:** Can you connect every feature to its tests — in both directions?
- ☐ **Automation Coverage:** Is your automation focused where it matters most?
- ☐ **CI/CD Quality Gates:** Does bad code ever get through without you knowing?
- ☐ **Observability:** Can you debug failures in minutes, not hours?
- ☐ **Quality Culture:** Is quality owned by the whole team — or just QA?
